| <b>Target version:</b>   |                   | <b>Spent time:</b>     | 0.00 hour  |
| <b>Description</b>   |                   |                        |            |
| Steps to reproduce   |                   |                        |            |
| 1) Open Citrus app   |                   |                        |            |
| 2) Login with any correct account                                      |                   |                        |            |
| 3) Tap on catalog button   |                   |                        |            |
| 4) Scroll down and tap on events                                       |                   |                        |            |
| 5) Observe   |                   |                        |            |
| Expected result - Possibility of entering events after tapping on it   |                   |                        |            |
| Actual result - Citrus events button not response after clicking on it |                   |                        |            |
